"The Art & Science of Cinematography"

601 - 396 QUEENS AVENUE - LONDON, ONTARIO N6B 1X8 - (519) 432-5512 CELL. (519) 878-8999

To whom it may concern:

I have worked with **John Ironside** on numerous occasions in 1994 and 1995 and I have found his work to be both competent and knowledgeable.

With John on location we can speed up location setups and teardowns substantially, allowing for more time allotted to actual production shooting. This efficiency allows us to increase production values while at the same time saving our clients time, money and headaches.

John is my first choice in camera and lighting assist in Ontario and we will continue to use his services wherever possible.

Feel free to contact me directly for more information.

Sincerely:

Gary Elmer
Director of Photography
EYE Line Cinematography
